

OPTIMAXX CD 139

Roller shutter with extra
compact design

Ultimate living comfort

A roller shutter is more than just a sun protection system; it provides ultimate living comfort, offering peace, privacy, security, and insulation. It keeps the heat inside during winter and provides cooling in summer.

The result? A safe, comfortable, and energy-efficient home that feels pleasant all year round. Discover how roller shutters elevate your home comfort in every season.

CD 139

Practical for any window

The Optimaxx CD 139 roller shutter offers many advantages. This model features an extra-compact design, making it ideal for spaces with limited room, such as skylights or areas beneath a gutter.

- Makes your home safer
 - Provides a burglar-resistant effect
 - Blocks unwanted visibility from outside
- Offers extra peace and privacy
 - Shields against various weather conditions
 - Regulates light intake
 - Reduces noise
- Ensures a comfortable, insulated living environment
 - Blocks heat and cold
 - Improves energy efficiency

COMPACT

Solar-power

The Optimaxx CD 139 is also available in a solar-powered version. This means the roller shutter operates entirely on solar energy, which is both generated and stored independently. As a result, it is both energy-efficient and sustainable. 100% of the power supply comes from the solar panel mounted on the housing.

The system requires no wiring through the wall, making installation much simpler, it can be done entirely from the outside.

Specifications

Colours

Design your roller shutter in the colors of your choice. A roller shutter with matching housing and slats creates a sleek, uniform look, while contrasting slats add a more dynamic and playful effect. Both options are available to suit your style.

Popular colours

	Traffic white (RAL 9016)		Agate grey (RAL 7038)
	Pure white (RAL 9010)		Anthracite grey (RAL 7016)
