Your sun protection system dealer:

SOLID SCREEN XL

As the name suggests, the SolidScreen XL is characterised by its substantial dimensions. The unique combination of reinforced materials mean the SolidScreen XL can be supplied in widths or heights up to six meters.

Therefore it enables you to mount a single zip-guided screen on a very large surface. Justifiably renowned as a highly impressive source of shade.

Characteristics

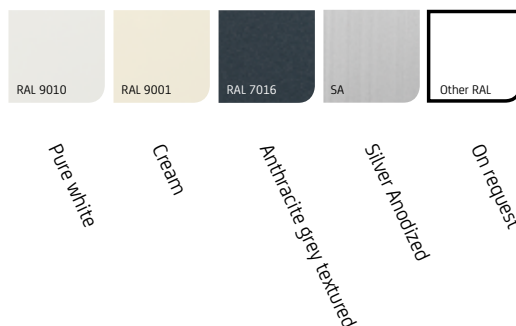

- ☞ Heat and light-resistant
- ☞ Unobstructed outside view
- ☞ Energy savings of up to 30%
- ☞ Wind-resistant up to 90 mph
- ☞ Available in widths or heights up to 6 meters
